# Esempio di composizione 1

Sample combinations 1  
Exemple de composition 1

In caso di composizione di cucina con isola e/o “blocchi” di elementi non contigui è necessario prevedere un kit di alimentazione per ogni blocco.

N.B. Max lunghezza del kit di alimentazione 8 ML (perciò in caso il blocco ecceda tale dimensione occorre aggiungere un secondo kit).  
Nell' esempio qui sopra è necessario considerare n°1 kit cod.0073190

If your composition includes an island and/or "blocks " of not adjoining elements, it is necessary to include a feeding kit for each block.

NB: Every block can be long maximum 8 LM (it means that if your block exceed this dimention you need to add one more kit).  
In the above exemple it is necessary to consider nr.1 kit cod.0073190.

En cas de composition avec ile et/ou "blocs" des elements pas contigues, il faut prévoir un kit d'alimentation pour cha cun bloc.

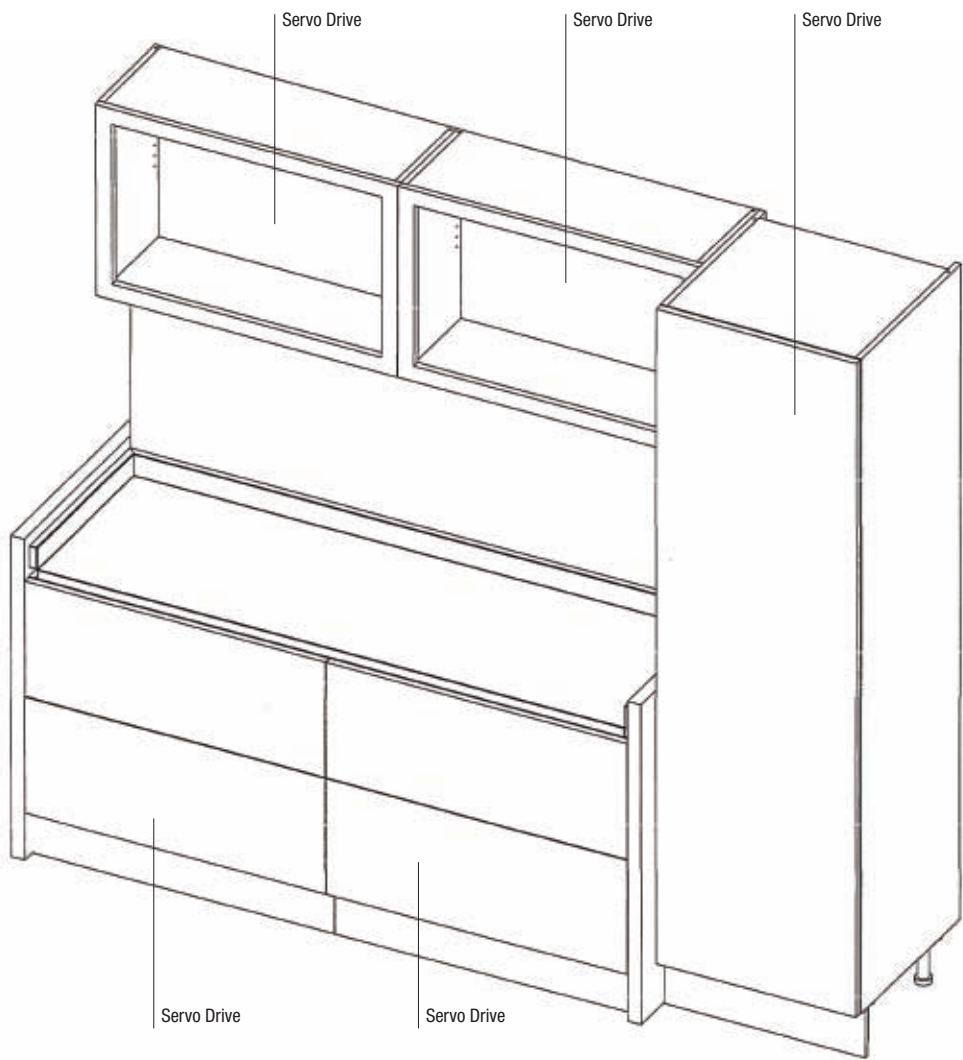

NB: Chaque bloc peut etre long maximum 8 ML (ca signifie que si Votre bloc dépasse telle dimension il faut ajouter un second kit.  
Pour l'exemple ci-dessus il faut considérer nr.1 kit cod. 0073190.

N.B.: per Servo Drive nei pensili, contattare ufficio per preventivo  
for Servo Drive into the wall cabinets, call the office for the price

# Esempio di composizione 1

Sample combination 1  
Exemple de composition 1

**In caso di composizione di cucina con isola e/o “blocchi” di elementi non contigui è necessario prevedere un kit di alimentazione per ogni blocco.**

**N.B. La portata massima del kit di alimentazione viene calcolata in base al voltaggio complessivo delle varie illuminazioni utilizzate (perciò nel caso il blocco ecceda tale portata occorre aggiungere un secondo kit). Nell’esempio qui sopra è necessario considerare n° 3 kit.**

If your composition includes an island and/or “blocks” of not adjoining elements, it is necessary to include a feeding kit for each block.

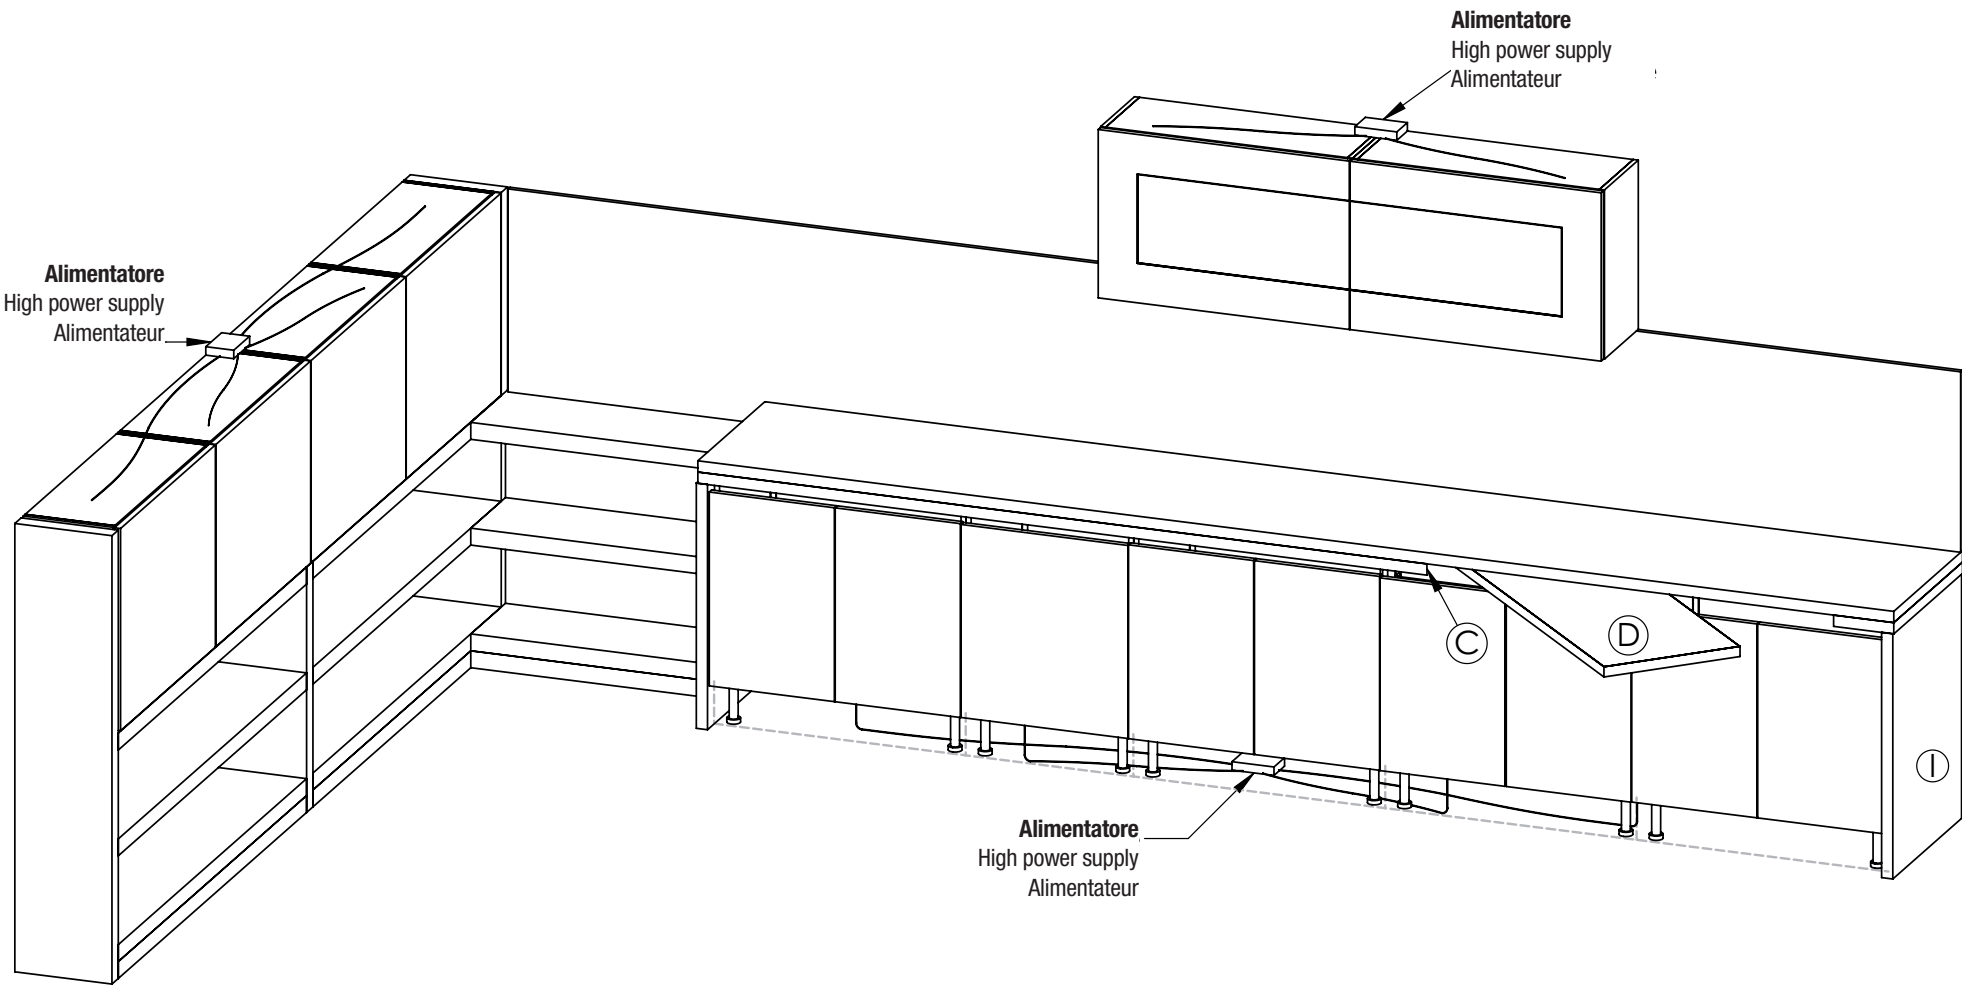

N.B.: The maximum capacity of feeding hit is calculated according to the total voltage of all lighting used.  
In the above example it is necessary to consider nr. 3 kit.

En cas de composition avec ile et/ou “blocs” des elements pas contigues, il faut prévoir un kit d’alimentation pour chaque bloc.

N.B: La capacité maximale du kit d’alimentation est calculée selon le voltage total des illuminations utilises.  
Pour l’exemple ci-dessus il faut considérer nr. 3 kit.

# Esempio di composizione 2

Sample combination 2  
Exemple de composition 2

In caso di composizione di cucina con isola e/o “blocchi” di elementi non contigui è necessario prevedere un kit di alimentazione per ogni blocco.

N.B. La portata massima del kit di alimentazione viene calcolata in base al voltaggio complessivo delle varie illuminazioni utilizzate (perciò nel caso il blocco ecceda tale portata occorre aggiungere un secondo kit). Nell’esempio qui sopra è necessario considerare n° 3 kit.
